EXPERT SPEAK

"A family home needs memories, so a wall with pictures of holidays, events, school plays, birthdays, etc is a must. A sofa bed is very important, as some homes may not be large enough to have a separate guest bedroom. Also add lots of decorative cushions and throws to make your home comfortable, warm and inviting."

—SAUTAM KITCHLU, FOUNDER DISCERN LIVING

EXPERT SPEAK

"Avoid pastel furniture. Colours are transient, and having a neutral palette to build on is crucial. Also avoid laser-cut jali work – it's dated and usually a hassle to maintain. Instead, move towards simpler shapes and forms that lend themselves to adding details elsewhere."
