2023 TREND SET GO

Another orbit around the sun and we're back with the hottest design trends that need to be bookmarked and saved for that ultimate home upgrade! Our Holy Grail of recommendations carries forward conventional, yet unorthodox textures and material palettes. Read on and gear up for the season's must haves—fine prints, curvaceous curves, controversial colours, mind blowing materials and more.

PESCE

Well, it's oh-fish-ial—what you see here is what you're going to get. On carpets, plates, in the form of handblown glassware and even installations, fishes are emerging from the deep blue seas and making splashes as a prominent interior design trend. Whether you take inspiration from its scales, skeletons, or fins—there is no dearth of creative ideas! Photograph by Parth Pathak, Enlarge Photography
