**KAVITA CHAUDHARY, 32**

*Jaipur Rugs, Jaipur*

A graduate from School of The Art Institute, Chicago, Kavita Chaudhary practices diverse art forms, including painting and sculpture. In 2006 she was the recipient of the 23rd America's Magnificent Carpet Award for re-inventing the humble Sumac. Her rugs are showcased in boutiques and lifestyle stores across the globe.

**Rug Raga** This hand knotted rug called Paratem is part of the Project Error collection that studies the concept of misprints and errors. The rug's design was conceptualised when observing a wall being painted by damaged rollers. A 80,000 point graph (approximately) was required for the rug to be made.
